# ASBESTOS

NOT HERE. NOT ANYWHERE.

**We know asbestos kills.** In some countries asbestos is still mined, manufactured and used. Everyday thousands of people are still exposed to deadly asbestos.

**The WHO** says the most efficient way to eliminate asbestos-related diseases is to stop the use of all types of asbestos.

**We are** supporting a union, community and political organising strategy with our partners in **Indonesia** where asbestos is imported, manufactured and used extensively.

**Indonesian workers** are organising and campaigning in **26 asbestos** producing factories and communities because we all know that together we can make change.

**And we are** building a global movement of people ready and willing to take action to see asbestos banned.

**You can** be a part of this global struggle by joining Union Aid Abroad-APHEDA. Asbestos. Not here. Not anywhere.
